uate Work on the Naval Appropriation Bill.

LOGAN'S CHINESE BILL.

ASHINGTON, July 28.—Representative e, speaking to-day of Logan's bill in the ate to prevent the passage of homeward nd Chinamen across the country, said if bill passes the senate, it will never get ough the house. If it comes here it must go he speaker's table or be referred to the mittee on commerce, on which I am the irman. If it gets to the speaker's table, will require unanimous consent or a pension of the rules by a two-thirds vote ake it up, and it will never get either. If erred to my committee I will take care it er gets through the house. With regard he objects of the bill, Page said it was evilly introduced by Logan at the request of railroad constituency in Illinois. There o necessity for these people coming this home. They did not pass through this ntry when going where they now are. The rney-general has decided that under the section of the bill they cannot be perted to pass through the country. When were preparing the second bill this matter brought before us and we could see no to frame a bill that would permit them through without destroying the chances ssing the bill itself.

PERUVIAN INVESTIGATION.

ASHINGTON, July 28.—To-morrow the committee of the house foreign affairs mittee, which has had Peruvian investiion in charge, will present its report to the committee. This report has been preed by Chairman Williams, assisted by Mr. , of Massachusetts. Both gentlemen are nerally reticent as to the character of the rt, but there is reason to believe it will be damaging to the reputation of Blaine. principal matters referred to in the re- are the papers mysteriously missing from state department and the question whether American minister or other officer had anyg to do with seeking to intervene between and Peru in regard to any claims against r government. It is understood the last tion is answered negatively. In paving way to this negative report it goes into istory of these claims and exhausts the espondence of the state department for tention bearing upon their relation to ous efforts at intervention by United s officials.

WASHINGTON NOTES.

The motion that when the house adjourns to-day, it will be to meet on Monday next, was carried.

Chas. W. Clagsby, principal reading clerk of the house, was prostrated by the heat while ascending the stairs of the capitol this morning. His condition is critical.

The cabinet meeting did not adjourn till 3:30 o'clock. Consideration of the river and harbor bill was not completed. A special meeting will be held to-morrow morning to consider the subject further.

John K. Popham, superintendent of the folding room of the house of representatives, has been arrested on the charge that while collector's clerk at Richmond he forged the name of Judge Hughes in bankrupt cases and secured some $2,100.

State News.

DENVER, July 28.—The preparations for the opening day exercises of the National Mining exposition are nearly complete, and an imposing programme will be carried out. The military display will be the finest ever witnessed in the state. Hon. W. D. Kelley, the orator of the day, is on his way from Washington, and will reach here Saturday night. The mineral exhibits of different counties of Colorado, and from other states and territories, are being rapidly placed in position. The art exhibits will be unexpectedly large and fine. A mistaken impression seems to have gotten out regarding the price of admission. It will be fifty cents under all circumstances.

At a festival last night at the Zion Baptist (colored) church, Denver, a row occurred, and George Duncan shot Al. Thompson in the back.

GEORGETOWN, July 28.—J. R. Pollock, accused of murder in Boulder county, was arrested in Middle Park and brought here this evening.

TERRIBLE EXPLOSION.

Large Property Loss at Chicago by the Explosion of Giant Powder.

CHICAGO, July 28.—A terrible explosion of giant powder took place shortly before 6 o'clock this evening, at a stone quarry on the northwest outskirts of the city, about six miles from the business center. The shock of the concussion was plainly felt all over the city, and the detonation must have been heard many miles. It was off the lines of communication, therefore the most extravagant rumors were soon in circulation as to the damage and loss of life, and many telegrams were sent to other cities. The facts are that a workman went to the powder-house, a wooden structure, containing, it is stated, one thousand pounds of giant powder, and fifteen hundred pounds of blasting. He took out a twenty-five pound can, left the door open, and setting it on the ground, proceeded to open it with a cold chisel. The result was that a spark was struck and the can exploded, throwing the workman, John A. Sabel by name, about thirty feet, and setting fire to his clothes. These sparks entered the powder house, where some of the cans stood open, and caused a second explosion, which tore the building into such minute fragments that the pieces did no damage as far as heard from. People were knocked down by the concussion many blocks away. A large amount of window glass was broken and plastering knocked off. Some houses some distance away were unroofed. It is stated a pane of glass in a drug store at Twelfth street and Indiana avenue, nearly seven miles away, was broken. No one was killed. Sabel, the workman, was burned about the face, breast and arms, but will probably recover. John Anderson, another workman, was thrown a considerable distance by the second explosion, and had his shoulder crushed. Michael Button, a teamster cording wood some distance away, was thrown to the ground and his arm broken. Mrs. Young and two children, four blocks away, were badly cut by the broken glass. A large number of other people were more or less shocked, but it is believed none are dangerously hurt. It is impossible to estimate the total loss.

Cleveland Races.

CLEVELAND, July 28.—The last day of the races; pleasant weather; fine track; very large attendance. The principal interest centered in the special race which for two heats was a remarkably stubborn between Clingstone and Edwin Thorn, those horses being lapped from wire to wire, causing intense excitement. The exertion was too much for Thorn and Clingstone won the deciding heat with the greatest ease, jogging the last half. The average time of twenty-eight heats trotted at this meeting was a fraction over 2:21½. The average of eleven pacing heats was less than 2:17.

In the 2.20 trot, for a purse of $2,000, Rose Wilkes was the favorite. She won in straight heats with ease. Time, 2:18½, 2:16¾, 2:18¼. By the breaking of one line in the last heat, Colonar steered against the inside fence and jumped over throwing her out, but not seriously injuring the driver.

In the special race, for a purse of $3,000, Clingstone sold in the pools at 100 to 30 for the field.

Temperance in Nebraska.

CHICAGO, July 28.—A Lincoln, Nebraska, special says: The state temperance convention completed its labors to-day and adjourned. An executive committee was appointed to superintend campaign work throughout the state and five delegates were selected to attend the national temperance convention at Chicago in August. The question of submitting a constitutional amendment to the people will be laid before the state convention so that each party may take some decisive action. A thorough canvass of the state in the interest of the amendment was decided on.

PEACE PROPOSALS

Said to Have Been Made By Arabi Pasha,

But Warlike Preparations Will Not Be Relaxed,

As It is Thought to Be a Plan to Gain Time.

ALEXANDRIA, 12:45 p. m.—July 28.—Heavy firing is heard in the direction of Aboukir fort. Arabi Pasha sent a train to the junction, and an armed engine and tender were sent out to meet it. Two shots were exchanged.

ALEXANDRIA, July 28.—Arabi Pasha offers to retire to a Mussulman monastery in Syria. Among his colleagues for whom he asks the same terms are Toulba Pasha, Ali Fehoy, Abdalah Pasha and Mahmoud Samy. The armed engine dispatched by the British was sent to meet Roanoff Pasha and the two ulemas, to discuss this proposal. It is stated the government has received no confirmation of this news.

LONDON, July 28.—In the house of commons the under foreign secretary stated that the telegram received from Cartwright, the consul-general at Alexandria, alluded to the indirect communication from Arabi Pasha, with a view to surrendering the military party, but there has been no direct communication from Arabi Pasha so far.

LONDON, July 28. The Standard, in its edition, just issued, says that up to the time of going to press no information with regard to Arabi Pasha's offer has been received by the government of Alexandria. There will be no cessation of military preparations, as it is thought that Arabi's offer may be only to gain time.

The report is confirmed that Arabi Pasha has proposed terms of peace, the conditions being voluntary exile, and retention of the rank and pay of colonel for himself and nine of his colleagues, and that the khedive has submitted the proposal to General Archibald Allison. It is believed this step was taken at the instigation of the sultan. The report has caused a rise in Egyptian stocks.

LONDON, July 28. Last evening a supplementary vote was agreed upon for 10,000 men for the army.

ALEXANDRIA, July 28.—Persons competent to judge believe half the cotton crop in Egypt will be lost, also a greater part of the wheat crop in lower Egypt, in consequence of the neglected irrigation.

LONDON, July 28. Egyptian Unified stock has risen 4 per cent. since last evening.

Reports are circulated on the stock exchange that Arabi Pasha has declared he will not respect the Turkish troops if they operate without European auxiliaries, and that Austria and Germany have also reverted to the plan of Turkish intervention.

ALEXANDRIA, July 28.—Lord Charles Beresford states that without the assistance of the American marines he would have been unable to discharge the numerous duties of suppressing fires, burying the dead and clearing streets. The bombardment of Aboukir has been postponed.

CONSTANTINOPLE, July 28.—Rumors that Arabi Pasha declared he would resist Turkish forces are untrue. He has renewed his fidelity to the sultan. At a meeting of the conference yesterday Lord Dufferin, British ambassador, renewed his proposal for the issue of a proclamation declaring Arabi Pasha a rebel. Said Pasha, Turkish prime minister, thought such a proclamation should not be issued till Turkish troops landed in Egypt.

LONDON, July 28.—In the commons this afternoon Gladstone read amidst cheers an extract from instructions forwarded to Lord Dufferin, British ambassador at Constantinople, after the cabinet meeting yesterday, saying England was glad of the co-operation of any power but calling on the sultan to state the date for dispatch of troops, and before they were dispatched to issue a proclamation upholding Towfik, the khedive, and denouncing Arabi Pasha as a rebel. Gladstone said communications were still passing with Italy regarding her co-operation and added that a communication had just been received from Musurus Pasha, Turkish ambassador at London, announcing the sultan would send troops immediately. The communication of Musurus Pasha contained no reference to the proclamation of Arabi Pasha as rebel. The communication will not interfere with the proceeding of the conference.

Gladstone also states that Lord Dufferin has been instructed to inquire as to the number of troops the sultan proposes to send to Egypt and in regard to their proposed disposition.

In the lords Granville, foreign secretary, stated that an informal meeting had taken place with Arabi Pasha during the last few days, but he was bound to say there was nothing in them which the government could rely on or which would justify them in relaxing present preparations.

CONSTANTINOPLE, July 28.—At the sitting of the conference yesterday, the porte while consenting to send troops to Egypt at once expressed the hope that England would withdraw her forces from that country.

ALEXANDRIA, July 28.—A loyal native just from Cairo says a number of helmeted natives in European clothes have been paraded through the streets as captured British.

ALEXANDRIA, July 28.—Following is briefly the verdict of Admiral Nicholson on the bombardment; "We don't mind saying we could not duplicate that lot."

The pilot engine preceding the one sent with officers to meet Raoff Pasha came to grief near Mahallaf, Arabi having cut the line during the night.

Admiral Seymour asking what measures he would suggest with regard to Aboukir forts, which the admiral said were a standing danger to the British position at Ramleh, the khedive replied he had sent vice-admiral Kissmann to summon the garrison to return to loyalty, and that in event of refusal he would leave the measure to his discretion. If the garrison does not surrender it is believed it will be bombarded Monday.

A criminal yesterday was sentenced to death by the native tribunal and executed today. He was chained between men sentenced to flogging for looting, and conducted through the town by a party of natives selected to do the shooting. The procession was headed by a crier who announced that the condemned had been convicted for killing a European. He was shot outside the gates in the presence of British delegates. A native orator who aided in inciting massacres and hitherto hiding in town has been arrested.

A deputation from Kafr el Devar arrived to-day and will be given audience at once.

A strong expedition will start this evening to seize and occupy a position on the railway within two miles of Arabi's camp.

Forest Fires.

EAST TAWAS, July 28.—The forest fires to the northwest and south are burning fiercely. Fields, grain, farm houses, fences and orchards, together with immense tracts of cedar and pine, are burning. The hemlock woods east of here are impassable, and no correct list of losses can be given, as accounts conflict. Brower's camp, on Hope creek, was burned yesterday, with a loss of sloughs and lumbering equipage. The reports say horses, cattle and other stock are burning, and the farmers are deserting their homes. At five p. m. a heavy thunder storm set in, lasting an hour, and will tend to check the fires. The fires above Oceda are threatening the town. Kinkerdall's place is reported to be entirely destroyed.

Failures Reported.

NEW YORK, July 28.—The failures for the week reported to New York are 111, a slight reduction from last week. Of these the eastern states furnish 18, western 39, southern 19, middle 22, Pacific and territories 8, New York City 5. The only failure of note in New York is that of W. J. Wilcox & Co., hard, with liabilities unsecured about $110,000. The probability is they will pay in full, half cash balance on time. A new concern will be organized.

Fast Freight.

CHICAGO, July 28.—A train of twenty cars of tea and silk left San Francisco on the evening of July 12, left Deming at 8:10 July 10th, and arrived in Kansas City at 2 a. m. on the 19th, making the run from San Francisco to Kansas City in six days and six hours, and from Deming to Kansas City over the Atchison, Topeka & Santa Fe railroad, 1150 miles, in sixty-six hours. This train was destined part for Chicago and other portions for Detroit and New York. A second train of twenty-nine cars left San Francisco twenty-four hours later and made the same time to Kansas City. This time is believed to be unprecedented.

TELEGRAPH BREVITIES.

Consols are quoted in London at 100 1-16, and extended 5s at 103.

The thermometer in New York yesterday was 94° and many sun strokes occurred.

Gelchley's boot and shoe factory burned this morning. Loss, $30,000; insurance $25,000.

Irvin Turner, colored, was hung yesterday at Lexington, Kentucky, for the murder of Abe Ray, also colored.

Sullivan, the pugilist, surrendered to the police yesterday on old charges of assault and battery and profanity.

Proceedings against railroad companies at New York to compel them to receive and transmit freight has been quashed.

Gladstone has informed parliament that the government has abandoned the hope of passing the corrupt practices bill this session.

Base ball: Buffalos 9, Clevelands 6; Worcesters 12, Bostons 11; Providence 7, Troys 4; Detroits 3, Chicago 2; fifteen innings.

A telegram from Bucharest reports the son of one of the Russian consuls in Roumania has been arrested at Odessa on [illegible] charge of supplying dynamite to nihilists.

The Amateur Rowing club has decided that the Thames crew, one of the London clubs, shall not be allowed to row against the Hillsdales in the Barnes and Mortlake regatta, Saturday.

All City of Mexico journals express marked satisfaction at the positive statement that Americans has refused to assent to Barrios' proposition. Friendship for the United States is strengthened.

The state prohibitionists' convention at Des Moines adjourned at noon yesterday. Nothing definite was accomplished except the reorganization of the old state association and the re election of its officers.

Thos. O'Leary, Timothy Brosn and Wm. Gilligan, field hands, took refuge under a cherry tree in West Roxbury, Mass., during a thunderstorm. Lightning struck the tree and killed O'Leary and Brosn and knocked Gilligan senseless.

B. F. Bigelow, former receiving teller of the National Bank of the Republic, Washington, was arrested yesterday at Port Huron. It is alleged he is short $35,000. Since July 23d he has been going from place to place, and gave himself up to avoid bother.

The following is the result of the election of the Southern Pacific railroad company: Directors, Chas. Crocker, Charles F. Crocker, Charles Mayne, W. V. Huntington, N. T. Smith, J. L. Wilcutt, Moses Hopkins; officers, Charles Crocker, president; Charles F. Crocker, vice-president; N. T. Smith, treasurer.

The New York Tribune says a returned Mormon bishop, with nine female converts, was seen on a street car, making for the west. The bishop crowned the event by saying he had converted the women to his faith and ideas of matrimony, and he would marry all of them as soon as they got to Salt Lake City, where people were civilized.

BURGLARS BAGGED.

McBride and Harding Captured by Deputy Sheriff Jackson.

Found Hiding in the Brush Near Little Buttes.

Movements of the Fugitives Since Their Escape.

The jail-birds, D. McBride and William Harding, an account of whose escape from the county jail was given in yesterday's GAZETTE, were captured yesterday afternoon. Under Sheriff Len Jackson, continuing the pursuit, went down to Little Buttes Thursday night. Yesterday forenoon he learned there that the fugitives had attempted to dispose of the revolver which they had taken from the sheriff's room. At Mr. J. C. Woodbury's it was learned that one of them had called there about ten o'clock and got a lunch. He said, in answer to a question of Mrs. Woodbury as to whether he was sick, that he was and had just come from the hospital at Denver. About an hour and a half later the pursuers also arrived at Woodbury's and learned these particulars. Still further information was got from some boys who had seen the burglars pass. About two miles below Little Buttes McBride and Harding were caught sight of in the brush. Mr. McGee, who had been assisting in the chase, was was not now with Mr. Jackson, but instead the tank-man, Mr. Butcher. McBride pointed the stolen revolver at Jackson. "Throw up your hands," said Jackson, and the command was obeyed, as was also the further one to throw away the revolver. Jackson then had Butcher get the revolver and hold it on the burglars while Jackson searched them. Two or three little pieces of steel from the boot shanks, with which they had done the sawing, were found. It seems hard to believe that so much could be accomplished with such instruments, and in so short a time.

The prisoners were brought up on the afternoon train and placed in jail.

After leaving town Thursday they went to Cheyenne mountain, but could not get over and were driven by hunger to take a more dangerous course.

As they stole the revolver, this little adventure is ground for another charge against them. The officers are, of course, much elated over the recapture. The statement in the Republic that the capture had been made in Pueblo was a mistake. The affair was conducted strictly by home talent.

Among the humorous features of the case was Deputy Tell's "holding up" the wrong man near Monument.

MANITOU MENTION.

What Is Transpiring At Colorado's Leading Resort.

Mr. F. K. Misch, of the New York Times, will visit the Peak to-day.

The guests of the Beebee drink soda from the Iron Ute spring as an appetizer.

Mr. E. B. Sopris, son of ex-Mayor Sopris, of Denver, registered at the Beebee yesterday from Trinidad.

Mrs. F. A. Reynolds, wife of the well-known banker at Canon City, took apartments at the Manitou house yesterday.

It being cool last night the Italian band gave their usual evening serenade in the hall instead of on the veranda.

General Reynolds, who has been at the Barker for a month or more, will leave for his home at Peoria, Illinois, to-day.

Yesterday was a big day at the Beebee, fifty-eight persons in all having registered, the most of whom were assigned rooms.

Miss Dora E. Wiune and Miss Lydia Warner, two very popular society ladies of Denver, are at the Cliff house for a few days.

Billy Bryan is one of the happiest of mortals at Manitou just at present. He keeps open house all night and is doing a thriving business.

The rustic bridge leading from the main road to the Manitou house is sorely in need of repairs. It has been blocked up for a week or more.

Ex-Governor Stannard, of Missouri, has engaged rooms at the Beebee for himself and family, and is expected to arrive to-day from St. Louis.

Rev. O. P. Griffin, pastor of the Tremont Temple, Boston, registered at the Barker house yesterday. He is making a general tour of Colorado.

In the persons of N. W. Bailey and W. H. Hampton, the Beebee house has two very efficient clerks. They are both very popular with the guests.

Rev. Reuben Jeffrey, of the Baptist denomination, who holds services at the Tabor opera house at Denver, is sojourning at the Barker house for a few days.

Messrs. Aux-de-Smith report that the livery business is exceedingly good just at present. There is especially a large demand for horses capable of ascending the peak.

Arthur Edwin and G. A. Olshausen, of St. Louis, two gentlemen who make a practice of spending every summer in Colorado, are at the Cliff house for a few weeks.

Enough of the Manitou people have secured tickets for Joe Emmet's performance, "Fritz in Ireland," to warrant the running of a special train from Manitou to Colorado Springs to-night.

The guests of the several hotels are looking forward to the regular weekly hop given by the guests of the Beebee house in Saratoga hall to-night. It will rank among the social events of the week.

Manitou has a very efficient fire department, notwithstanding reports to the contrary appeared in the Denver papers yesterday. As for the fire on Friday it was beyond the jurisdiction of the department.

Mr. L. G. Mason, one of the leading Michigan lumbermen and owner of several of the largest mills at Muskegon, arrived at the Manitou house yesterday. He is accompanied by Nathan Church and W. Kingsley, both well known business men of the same state.

Among the notable arrivals at the Beebee yesterday were Col. Walt. Smith, General Graham, Col. Johnson and Brigadier General George Williamson, all of Denver. They will remain over Sunday and in the mean time hold a clam bake on the hill side near the Iron spring.

Mrs. Leo Fox, of Chicago, celebrated her 23d birthday at the Manitou house yesterday. A sumptuous spread was made for her friends at the house and for a time the champagne flowed freely. A more elegant display of flowers has not been seen in Manitou this season than that seen upon her table during the birthday—repast. Among those who occupied seats at the table on this occasion were Mr. and Mrs. George Fox, Mr. Otto Fox and wife, Mrs. Speigle, Mr. J. Leibenstine and wife, Sidney Speigle and Miss Leibenstine.

CRESTED BUTTE.

A Few Words of Cheer from the Coming City of the Gunnison Country.

The following letter will be of interest to many of our readers:

CRESTED BUTTE, Colo., July 25, 1882.

Captain M. L. De Courcey, Colorado Springs.

DEAR SIR:—In reply to yours of the 21st, would say Crested Butte will try to do herself credit at the exposition. A committee was appointed at a meeting to get up a pamphlet, which, though not as extensive as the one gotten out by the town company, will cover the advantages we claim. There is also to be a large map of the entire region showing our position in relation to the various mining camps that are dependent on this as a railroad and supply point. Large cubes of the coking coal and fine specimens of the coke will be in our exhibit and that of the C. C. & I. Co. I send from my anthracite banks one piece weighing 4,200 and a number of smaller ones. The Philadelphia Coal company also sent a large piece of anthracite. From the iron mines back of town are a number of good specimens, and from my quarries pieces of limestone. From the new discoveries adjoining town specimens of fire clay superior to Golden, and black band iron ore are sent. From the neighboring mines fine specimens of galena and silver ore have gone, while from Ruby Camp, Rock Creek, Crystal Mountain, Gothic and Brush creeks tons of various silver bearing ore have been forwarded. The town has been building right along all summer, and the completion of the new roads will give it quite a boom this fall. The road to Ashcroft is under contract to Dunbar, Schaeffer & Co., to be completed by September 1st, and that will bring Ashcroft within twenty-three miles of this point, her other nearest point being Buena Vista, across the range sixty-seven miles. Aspen will be brought within thirty-five miles of us, making this the railroad point for all of Pitkin county. The road to Conundrum gulch will be completed about the same time and that camp is looming up as the best in the Elk mountains, reports from that being almost extravagant, even when given by generally conservative men. The distance is but seventeen miles, of which fifteen miles are now completed. The road down Sheep mountain will be a great help to all this section, as it will allow of hauling out of all the ores of that district, and if any have doubted its richness, a glance at their exhibit at the exposition will prove their mistake. All the gulches in this neighborhood are looking much better for this year's development and more capital is coming in than heretofore. Mr. E. R. Moffat, the proprietor of the lead works at Joplin, Mo., which has made his patent process such a great success, has after trying ores from this section and looking the country thoroughly over, decided to erect similar works at this point, choosing it over Gunnison and all other rival points on account of its situation. As he is a man of large means, a millionaire, he will have a necessary capital to make a success of these works. He returned to Missouri the other day to commence the immediate shipment of machinery here. The surveys for coke ovens by the C. C. & I. Co. are completed and they say that by October they will have 100 ovens in operation. The shipments of coal and coke now exceed twenty cars per day. Yours truly, HOWARD F. SMITH.

Sale of a Railroad.

INDIANAPOLIS, July 28. The Indianapolis & St. Louis railway was sold to-day to the Cleveland, Columbus, Cincinnati & Indianapolis for $1,396,000. Second mortgage bond holders will contest the sale.

The Chronicle speaks of the attacks made on Dorsey by "quasi republican papers" What kind of a republican paper is a paper which defends Dorsey?

Major Betts, of the Western Union office is on the war path Colonel Corman printed the copy of a press telegram just as it apparently read Major Betts will interview him to-day and this will explain any want of brilliancy in this afternoon's Republic

Sheriff Dana is to be congratulated on recovering the escaped prisoners He keenly felt the stain which this might make on his official career, though we all know he is a faithful, efficient officer The recapture was due entirely to the vigilance of his own officers and amply wipes out the escape These prisoners were almost too smart to be confined in a small jail like ours and ought to be put within the thicker walls and behind the stronger bars of the penitentiary

The Georgetown Courier makes the following earnest protest against bossism and moneyed politics, which will find an almost unanimous response in the rank and file of the republican party. "Yesterday's Tribune "states that a purse of $20,000 has been raised "in Denver by which it is intended to carry "the primaries in Arapahoe county for a certain senatorial candidate This, if true, "should disgust every honest, intelligent republican in Denver Don Cameron's "'bossism' in Pennsylvania is respectable "compared to this proposed method The men "or set of men who start out with the "avowed intention to buy seats in the United "States senate, will hear a 'halt called' before "they have gone very far, that will astonish "them The republican party of Arapahoe "county owes it to the state at large to see "that no hired mobs are permitted to defeat "the wishes of the majority of the party To "carry Arapahoe county in the convention we "must have the party united and thoroughly "enthusiastic To accomplish this the primaries must not be run in the interest of "any man or clique, but must be a free, open "and honest expression of the republican "voters of each precinct."

There is one department of the administration that will have no scandal about it, if it continues under the present management The postoffice department has never had a cleaner and more energetic management than at the present time It is saving in every direction, particularly in the star route contracts It is doing this without cutting any reasonable mail facilities on the frontier We print below what it cost under Brady and what it will cost under Howe to run the star routes

State or Territory	Annual Cost, Jan 1 1881, Under Brady	Annual Cost, July 1, 1882	Decrease
Montana	$280 457	$86 504	$193 951
Wyoming	156 051	51 524	105,427
Colorado	354 015	112,923	242,092
New Mexico	171 737	50 597	121,140
Arizona	366,1[illegible]	85,[illegible]2	281 000
Utah	220 457	104 496	115 961
Idaho	175,664	104,769	70 895
Washington	42,858	40,220	2,638
Oregon	275,143	85 538	189 605
Nevada	218,572	98,690	115,[illegible]
California	574 1[illegible]9	299 093	274,[illegible]
Totals	$2,844,165	$1,1[illegible]5,1[illegible]0	$1,719,016

The whole service in Wyoming will only cost $51,524 this year, while it cost $100,165 for a single contract in Wyoming under Brady In Montana Brady paid $76,990 for a single route, and the whole expenditure for this year will be only $10,000 more This shows conclusively the corruption of Brady, the only corrupt feature of Hayes' administration.

Last Monday we received a large pamphlet containing the rejected Shipherd testimony We presume it is printed by young Belmont for the purpose of injuring Mr Blaine But it [illegible] less more injury to General Grant, as [illegible] he was the close adviser of Shipherd After Arthur became president General Grant was requested to have Blaine telegraph certain instructions to Hurlbut. The following is the correspondence as given in the report of the testimony

"On the 8th of October I wrote this note

THE PERUVIAN COMPANY [illegible] BEAVER ST NEW YORK, October 8, 1881

"MY DEAR GENERAL—Please read the inclosure It is what I want the secretary of state to send to Hurlbut by cable at once

Senator Blair thinks it too much to ask. Senator Eaton thinks it very little to ask

[illegible] too strong in view of the enormous interests at stake and the critical situation

Faithfully yours,

JACOB R SHIPHERD

"Gen G ant.

"The inclosure was this:

"OCTOBER 8 1881

"Acknowledge immediately by cable your receipt of and obedience to telegraphic and mail instructions of August 2 and send by [illegible] copies of telegraphic instructions as received by you Deliver copies of both those [illegible] and Chili Deliver to Calderon [illegible] pamphlets of the Peruvian company [illegible] Prospectus draft and treaty, [illegible] Truth Demonstrated" Notify Peru and Chili peremptorily that no adjustment will be allowed which does not provide for the [illegible] of this department for [illegible] of Landreau and adjudication of Cochet claims and insist on status quo meanwhile Avoid absolutely Societe Industriel Report receipt of this and obedience by cable

"These papers were returned to me with this indorsement the indorsement being written on the back of my note

"'The inclosed is what I think the secretary of the state should send in view of his instructions to Hurlbut, and the latter's actions, as I understand the matter But I can ask nothing and expect nothing from the present secretary of state U S GRANT "

The stalwart leader here admits that he did not have influence enough with Blaine to induce him to help Shipherd yet the stalwart organs have been attacking Blaine for too great interest in Shipherd's cause. Grant, not Blaine, appears to be the man. Grant's relations to Arthur were so peculiarly close that it was as dishonorable for him to have used his efforts to get this scheme through as though he were a member of the cabinet

Roscoe Conkling delivered a speech a few weeks ago in response to a serenade and this speech has attracted very general attention Why it should be printed, it is difficult to understand It is full of dreary platitudes very awkwardly expressed He says in one sentence that we need the lesson and the admonitions of the hour in affairs of government and of business, of frugality, foresight and care " Just why "we need the lessons and the admonitions of the hour in affairs of frugality, foresight and care," it is difficult to understand He also in this great speech uttered the eloquent thought that "old party issues have largely passed away, at least as dividing lines" Now how an issue can exist between two parties without making a dividing line, it is equally very difficult to understand If an issue is a dividing line passes away the issue itself cannot exist Mr Conkling has a large vocabulary, but reading his recent speeches is very much like reading a page in a dictionary

The greatest devourers of novels in England are factory workers who fly to them from the dull ugly routine of their daily toil and persons of leisure, of moderate means who cannot afford society, travel, theaters etc Such persons abound in English watering places

In a recent lecture Mrs Julia Ward Howe remarked as to [illegible] of the affection, that falling in love is a thing which has gone so entirely out of fashion that a woman of her age might be excused for asking whether any one of those present had ever dreamed what the idea of such an experience could be

At the outset of his career, Mr Irving, the English actor, was not considered a good after-dinner talker, but there are few now readier or more effective speakers At a recent dinner at which he was chief orator "his quiet sentences (quoting a report) were delivered in a half-dreamy fashion, pregnant with truth and common sense, and spiced with quaint illustration and real fun

Mr Blaine and family are enjoying every minute at their pleasant and generous home in this city The grandeur of Washington and its brilliant society will never wean them from the love of the city and state which they delight to call their home There is not a pauper in the streets who is known to Mr and Mrs Blaine that does not receive kindly greeting from them when they come home, and always substantial charity when needed —[Augusta (Me) Journal

Twitting on Facts

Golden Transcript

The Leadville Democrat is justified in demanding that Charley Cavender be incontinently shot for his audacity in naming one of his mines in the vicinity of Kokomo the "Leadville Republican Alderman " Some foolish and inquisitive person on asking the explanation of the conundrum was told by this son of Belial that he named the mine as he did because "it could be bought at any time at a reasonably good price " A joker who would twit so unmercifully on facts doesn't deserve to live.

Millais.

The Form [illegible]

Powerful realistic art can only be produced [illegible] realists [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] precise details which give to such painting a striking look of realism The art which seeks to put into a form an impression, an inspiration, works from a mental vision So strong is the impression, so complete the inspiration of such Titans as Phidias, Titian, and Turner, that the exactness with which essential truths are seized by such a mental vision as they were evidently possessed of, is greater than the exactness of most of those artists who imitate nature for the sake of the realistic qualities only Modern art has developed its own special kind of realism, and Mr Millais has, in some of his finest works blended such realism with poetry and pure sentiment in a most delightful and original manner It is not the realism which we find in such works as "The Huguenots," "The North-west Passage," "Effie Dean," it is wished here to depreciate It is the idea, an idea which emanates chiefly from foreign schools of painting, but which has most destructively affected our own English school that it is a worthy aim for an artist to treat realism as an end in itself, instead of a means of expression It is the overbalancing all other aims of art, the desire of producing the effect of reality, which ends by blunting the artist's instincts toward the finest quality in nature's laws, that of perfect balance, for by such an overbalancing many modern realists defeat their own aim In art as in other matters it is obvious that the exaggeration in one direction will end by destroying the virtues of those very qualities for which others are sacrificed What the eye sees without reference to association, thought, or emotion can never satisfy as a complete vision any civilized human being whose culture embraces the thoughts and history of a past and the aspirations toward a future. The English popular taste has never demanded the intellectual element in art, so the short coming inherent in Mr Millais's genius has not stood in the way of his popularity But it is to be doubted whether his popularity would ever have become really great and stable had he in his less recent work left out emotional sentiment No one can justly say there is a want of "heart" in Mr Millais's genius, however little he may choose to put into some of his later works and his dexterity as a painter proves the power of his hand Perhaps it may be in Mr Millais's case more precise to call the third ingredient the eye, for it may be doubted whether he has much native facility of touch As a servant to his eye which is splendidly accurate, his hand works with touches of almost unrivaled force, but that instinctive touch the result of the whole nature being permeated with a sense of beauty which unconsciously flies over the canvas, leaving in its track always some suggestion of beauty, as in the sketches by Reynolds, such a facility of touch we do not find in Mr Millais's painting If he hurries he smears, if he generalizes he daubs, still when he means an effect should come, however much time and labor it may cost him, the hand can carry out the effect. The real short-coming is in the intermediate ingredient Mr Millais seems to have become more and more callous to the value of the intellectual quality in art. The world in general has of late years become more and more callous as to its value. Mr Millais has probably influenced the public taste by giving it fascinating work which has so little thought in it and the public taste has probably influenced Mr Millais by being so enthusiastically delighted with such art

The Jews and Wagner.

Temple Bar

There was one man who took pity on a poor young physician, and supported him and got him work This man was a Jew, yclept Meyerbeer, the first man who helped him, the first man whom he attacked the moment he had an opportunity to use his pen in gratitude for services received Another man gave him the first piano he ever had, this man also was a Jew, so that, owing the real starting point in musical life to a great composer and a benevolent friend, Wagner's mightiest effort as a literary man was to heap every possible insult absolute and calumny on the Jews, though the Christians would have allowed him to die from starvation but then a Christian is only a baptized Jew * * * Be this as it may, I know that he says not only that in Vienna the Jews have attacked and most grievously harmed him—the said Jews being the well known critics, Hanslick, Schelle and Speidl, all three the best Catholics, as Vienna Catholics go, but he even openly stated that he could not return to England because the unfriendly reception which greeted him at his last appearance here, or, in his own words, "the antipathy with which he met in London, years ago, is based upon the peculiar character of the English religion having more affinity with the Old than the New Testament." That is to say, there are only two true religious systems in the world, Wagnerites and Jews Those Christians that do not adore Wagner and "no other God by his side" are Jews, i e, a set whose intelligence is nothing but ill used shrewdness turning the world of believers in Wagner into infidels, who believe in Mendelssohn, Mozart, Rossini—musicians and melodists unworthy of being named in the same breath with the lord of lords Richard Wagner

Epping Forest

Chambers' Journal.

Within a few miles of the great throbbing heart of London there still remains a portion of the royal forest of Waltham, which in ancient times covered a great tract of country, and extended to the very walls of the city Its vast area included the forests of Hainault of Epping, of which some six thousand acres of picturesque woodland have, after much opposition and many difficulties, been secured for public health and recreation By the new charter of forest rights, not only wide stretches of land, after years of cultivation, have been redeemed from inclosure, and restored to the forest limits, but nearly thirteen miles of almost unbroken woodland scenery, forming, perhaps, the most extensive pleasure grounds in Europe, have been formally dedicated by the queen to the use and enjoyment of her people for all times So far back as the twelfth century, in the reign of King Stephen, and again by a charter of King John, much of the outlying land was disafforested Edward I's "Charta de Foresta" still further reduced its bounds, which were again determined by Charles I, and since that time they have been diminished, year by year, by illegal encroachments Not only the residents of East London, but the nation at large, must feel grateful to the corporation of the city for preserving and restoring, as far as possible, to its ancient limits a landmark grand in itself, and interesting by right of its connection with splendid and historic memories

The Modocs are very good base ballists A very fine game was played on the open prairie between the Modoc and the Peorias The Peorias appeared to be the more athletic and taller, but the Modocs, although a shorter, squattier set of men, seemed to hold their own They are really skillful base ball players, being splendid catchers, throwers and excellent runners The Peorias are finely uniformed in white shirts black velvet breeches trimmed with gold stripe down the leg, red stockings and regulation shoes They play a very quiet game, seldom speaking a word, and seem to thoroughly understand and utilize all the tricks practised by the best clubs,

An Important Railway Decision

Denver Republican

On the 21st of July, Judge Hallett, of Denver, Colorado, rendered a very important decision concerning the rights of railroads. The Denver and New Orleans railway had brought suit against the Atchison, Topeka & Santa Fe, asking for an injunction restraining the latter road from discriminating in favor of the Denver & Rio Grande. The decision of Judge Hallett was against the Denver and New Orleans, and the injunction was peremptorily refused. The ground upon which the injunction was asked was so evidently insufficient that a refusal was inevitable. The suit was not to maintain existing relations but to establish entirely new ones. This was as reasonable as it would be for a merchant having had no previous business relations with another merchant, to bring suit to compel a partnership in an established business on terms fixed by himself. Indeed the cases would be parallel if the merchant bringing suit should have just entered business, and the defendant should have, by years of industry and enterprise, built up a large trade, which the envious beginner desired to share. The absurdity of such a proposition, its unfairness and illegality were at once apparent. The judge, therefore, decided that, as it was the purpose of an injunction to affect relations already existing and not to create new ones, the motion could not be entertained.

INVALIDS AND TOURISTS.

The Seven Lakes Hotel is Now Open.

It is the highest hotel of the kind in the world, and in the highest forest.

The principal lake is eighty feet deep and one mile in diameter, is the highest in the world, being 11,4?? feet above tide water —[Report of the U. S Signal Service

It has the highest sail boats in the world.

"The road via Cheyenne canon and Beaver park to Pike's Peak, about 13,000 feet, is the highest carriage road in the world, and the volcanic crater, within which are the hotel and lakes, is the highest and largest in the world. It does not militate against the crater that it has but one opening. "—[Chancellor of the Kansas State University.

Professor Spring, says "The scenery is extraordinary, sublime, beyond description."

Bald the pyrotechnist who made the fire works for the great Masonic celebration in Chicago "I never felt so near the Great White Throne as when beholding these stupendous remains of God Almighty's fire works."

Rev M. C. Crane, says "Along the Cheyenne road and at the lakes, the views are glorious. By the old lake-bed, over 13,000 feet in the air, I found many precious crystals. I have never felt so happy since my marriage day."

Rev. Mrs Crane "All this, and heaven too."

Bierstadt, the Rocky Mountain artist "I never grow weary looking at it. It changes every hour. Cheyenne mountain over the very crest of which runs the road of the lakes and Pike's Peak, is the only mountain in the world which rises without a base. From the prairies it boldly springs up 4,000 feet."

Various journals notably the Atlantic Monthly, and "H H," speak kindly of the house, lake and road

"O, for some kind friend to kick me up another hill," said Mark Twain, before the road was made.

The water, or highly developed air, ozone (processed oxygen), or both, cures many diseases. Exhaustion, nervousness, and every symptom of paralysis, at once disappear. So with many lung and heart troubles

The hotel is four miles from Pike's Peak (official survey), and the carriage road three miles therefrom.

Everything in hostlery, guides, couriers, horses, burros, tents, lunches, etc, furnished at reasonable rates

A tent hotel at or near the Peak (timber line)

An abundance of goat's or cow's milk for invalids.

Carriages furnished as guests require

Joe Emmet at the opera house to-night, in Fritz in Ireland.

Yesterday afternoon's mail train reached the city three hours late.

Don't fail to see Joe Emmet in "Fritz in Ireland" at the opera house to-night.

Dr. A. P. Tenney, of Atchison, Kansas, is visiting his brother, Rev. E. P. Tenney, of this city.

The one thousand feet of new hose ordered by the council for the fire department has been received.

Mrs. F. F. Wheelon and Miss Baldwin left yesterday for Manitou park for a several weeks' sojourn.

Base ball at the association grounds this afternoon at half past two. Colorado Springs Reds vs. Leadville Blues.

The Colorado Springs Troubadours are progressing finely with their rehearsals, and an excellent entertainment is in prospect.

Miss Kittie Richter, daughter of J. B. Richter, of Point Richard, Michigan, died yesterday morning at 11.45, at one of the Jones cottages.

J. C. Dormer has been elected major of the First Battalion Colorado National guards. The election took place in Denver on Thursday night.

Captain Tuttle, A. A. Adams, W. R. Thornell and other members of the Colorado Springs Reds will attend the meeting of the Colorado league at Denver to-morrow.

The Illinois Press association will arrive in Colorado on August 3d, and will remain five days. The party will number about 100 and will visit Colorado Springs and Manitou before returning.

Sells Brothers' circus was yesterday compelled to pay a bill poster's license. Mr. Nye of the opera house is required to do so, and it is no more than right that visiting circuses should do the same.

The contest which was to take place last evening between the Jackson and the Signfus pluguen did not occur. A similar contest for five dollars was gotten up, which was won by Barnes of the Signfus. There will be another trial next Monday evening.

After playing the Reds in this city to-day the Blues will play the Browns, of Denver, the Longmont Utes, and the Boulder nine and go thence to Omaha where they have arranged for five games with the U. P., B. and M., and Council Bluffs nines.

Mr. M. C. Allen, superintendent of Sells Brothers' advertising brigade, was in the city yesterday, accompanied by his force. Elaborate show bills have been displayed on all the bill boards erected by Anderson & Gaby. The date on which the circus will appear here will be August 18th.

Rev. H. D. Hitchings was in the city yesterday visiting his old friend Mr. A. Sagendorf. Mr. Hitchings was one of the pioneer ministers of Colorado. He was pastor of the St. John's Episcopal church at Denver twenty years ago. Since 1869 he has resided in New York City and is merely out here on a visit.

It is reported that a dance will shortly be given in the Masonic hall to which the guests of the Manitou hotels will be invited. It will be given out of courtesy to the proprietors of the Manitou hotels, who have so kindly invited the Colorado Springs young people to participate in all the dances given by them.

Messrs. Nye & Craig are at work on a large oil painting valued at $150, which they propose giving away. Any person ordering one dozen new photographs will receive a ticket. A record of the number and the name will be kept until the 1st of January, on which day a drawing will take place under the management of a select committee. The person drawing the lucky number will get the picture.

The contract of placing the new heating apparatus in the high school building has been awarded to Mr. G. S. Barnes. The system will be the most complete in use, and will cost when completed $1,004.50. Salamander furnaces will be placed in the basement of the building, from which hot air pipes will lead to all the rooms in the building. Not only will the apparatus heat the building at an average of 75 degrees, but a complete ventilating system will be connected with it, so that there will be a complete change of air in the rooms every thirty minutes. The board of trustees have considered the matter carefully, and think the proposed system the best they could procure. The work is to be completed by the opening of the fall term.

This afternoon at promptly 2:30 o'clock the third game of ball between the Blues of [illegible] city, will be played. The Reds and Blues are considered to be the two best matched clubs in the state, and the game promises to be close and exciting. As it stands two games have been played between these two clubs, one resulting in a tie and the other in the defeat of the Reds by a score of 8 to 1. Notwithstanding the fact that the Reds are crippled at present, they will, with Kent to pitch and Donnelly to catch, give the Carbonate camp ball tossers a close game. All interested in the national game should turn out and witness the game, and thus lend the Reds some encouragement. Arrangements have been made that in case of rain the grand stand shall be perfectly water-tight, and no one need stay away through fear of a shower.

Various Causes—

Advancing years, care, sickness, disappointment, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYER'S HAIR VIGOR will restore faded or gray, light or red hair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action. It removes and cures dandruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or the glands decayed. Its effects are beautifully shown on brashy, weak, or sickly hair, on which a few applications will produce the gloss and freshness of youth. Harmless and sure in its results, it is incomparable as a dressing, and is especially valued for the soft lustre and richness of tone it imparts.

AYER'S HAIR VIGOR is colorless; contains neither oil nor dye; and will not soil or color white cambric; yet it lasts long on the hair, and keeps it fresh and vigorous, imparting an agreeable perfume.

For sale by all druggists.
